Installation rates will vary with the needs of your service. There are many steps involved in installing your phone service, but not every customer needs each step. The amount of work needed to install phone service for you will depend on the type of facilities and service you want.

Business and Residential customers have the option of deferring regulated installation charges over a three month period.

Deposit Policy

Customers may be asked to pay a deposit to establish telephone service. The amount of your deposit is determined when you apply for service.

Error On Your Bill

If you have a question on your bill, call your local service representative. Explain the possible error to the representative who will help you. If the error cannot be resolved, please pay the undisputed charges on time so you'll maintain a good payment record while the problem is being investigated.

Paying The Bill On Time, So Your Service Will Not Be Disconnected

Customers will receive a written Past Due Notice for late payment. Service will be disconnected if payment is not received by date indicated on notice.

CUSTOM CALLING

Call Forwarding

Call Forwarding lets you transfer your incoming calls automatically to any other telephone you can dial within the continental U.S.A. without the assistance of an operator.

To Forward Calls:

- (1) Listen for a dial tone.
- (2) Dial 7 2 #, (Dial "72" on your rotary phone.)
- (3) When you hear a second dial tone, dial the number where you want to forward your calls. Dial # again.

To Cancel Forwarding:

- (1) Listen for a dial tone.
- (2) Dial 7 3 #, (or dial "73" on your rotary phone)
- (3) Two short tones tell you Call Forwarding has been cancelled.

Some Things To Remember:

- Call forwarding continues until you cancel it from your telephone.
- You can still make outgoing calls from your telephone while Call Forwarding is established.
- A short ring will be heard whenever your number is called to remind you your telephone calls are forwarded. You cannot answer these calls if other persons use your telephone, let them know when incoming calls are being forwarded especially if they are expecting an important call.
- Don't forget to tell the person who will receive your calls that you are using Call Forwarding especially if you will not be where your calls will be forwarded.
- You pay applicable charges, if any, for calls forwarded from your telephone.

Home Intercall Service

Home Intercall Service allows customers with a one party residence or business line to use their line to provide an intercom system. With Home Intercall Service the customer dials his own telephone number, hears a busy signal, hangs-up and all telephones on that line will ring.

Three - Way Calling

This service lets you add a third person to your conversation.

To Add A Third Person To Your Conversation:

Press the switchhook once, firmly (1/2 second), and release immediately. This puts the original call on "hold." Listen for three short tones, then a dial tone.

Dial the telephone number of the third person to be added. After the third person answers, you may talk with that person before returning to the original call.

To return the original caller to the line and complete the three-way conversation, press the switchhook once, firmly, (1/2 second), and release immediately.

NOTE: If the line is busy or doesn't answer, cancel the three-way call by pressing the switchhook once. Continue the original conversation or try again.

To Remove Either Person From The Conversation:

The original called party just hangs up to disconnect. The third person is removed by your pressing the switchhook once and releasing it immediately, or by the third person simply hanging up.

All three connections are automatically disconnected when you hang up.

To Add A Different Person:

Perform a "remove" step. Then repeat the first four steps.

CUSTOM CALLING (Cont'd)

Speed calling provides one-digit codes for up to 30 of the telephone numbers you call most. You can dial both local and long distance calls with Speed Calling.

To Place A Speed Call:

When you hear the dial tone, dial the Speed Calling code (2 through 9) assigned to the number you're calling. If your telephone is Touch-Tone and equipped with the pound symbol (#) key, press the code number and then the # key.

To Add Or Change A Speed Call Code Number:

8-Code Speed Calling:

- Listen for dial tone, then dial activating code 74. (On a Touch-Tone phone equipped with a pound symbol (#) key, press 74 and then the # key.)

- (3) Your call will go through after a short pause.

Calling Waiting

This service lets you answer a second call while you are using your telephone.

How It Works:

A short tone signals that another person is trying to call you when you are on the phone. The incoming caller only hears the usual ringing signal. You can put one call on hold while handling the second call, or alternate between the two.

To Answer The Second Call:

If you wish to end the first call, hang up. Your phone will ring and the second (incoming) caller will be on the line. If you want to hold the first call while answering the second call, press the switchhook once, firmly (1/2 second), and release it immediately. You will be connected with the other person on your line. (Use the recall button on Trimline® models.)

Returning To The First Call:

To return to the first call, simply press the switchhook once, firmly, (1/2 second), and release it immediately. With this method you can switch between the two calls as frequently as you wish.

How To End Either Conversation:

After you have finished talking with either caller, hang up. Your phone will ring and when you answer you will be connected with the person remaining on the line.

Cancel Call Waiting

Turn on Cancel Call Waiting when you're making an important call and talk as long as you want with no interruptions. After you finish your call, Call Waiting returns automatically when you hang up the phone. Cancel Call Waiting assures you of uninterrupted phone calls during important conversations, when talking long distance or when using your personal computer modem.

Instructions:

- (1) Listen for a dial tone.
- (2) Dial 7 0 #.
- (3) Listen for three short tones, followed by a normal dial tone.

EQUIPMENT INFORMATION

Recording Or Monitoring Phone Calls

Anyone who records or monitors a phone conversation is required to make this known to all parties in the conversation. The party doing the monitoring or recording must ask the other persons' permission to record or monitor the conversation.

When using the public utility telephone network:

- A. All parties in the conversation must consent to the conversation being recorded or monitored; and
- B. The monitoring or recording must be signaled by either:
 - 1. a "beep tone" audible to all parties and repeated at regular intervals during the conversation; or
 - 2. clearly and permanently marking the telephones being used that the conversation may be recorded without notice.

Phone Receiver Off The Hook

At times you may not wish to receive incoming calls. Please do not leave the receiver off the hook as this unnecessarily congests the switching equipment. In some cases, we may have to disconnect your line to avoid overloading the equipment. When this occurs, your telephone will not work until it is reconnected in our switching office. We suggest if your phone is equipped with a jack, simply unplug it.

2-1-1 is a toll-free, statewide, crisis intervention, information and referral service that operates 24 hours per day, seven days a week. It is unique in that it is always answered by trained staff and volunteers - there are no answering machines or voicemail systems to navigate. We are accredited by the American Association of Suidology and a member of the Alliance of Information and Referral Systems (AIRS).

Attachments To Telephone Equipment

Attachments connected to the telephone company's lines must be in compliance with company tariffs and Federal Communications Commission regulations.

Telephone Safety

The telephone is one of the safest appliances in your home or office. There are, however, a few situations where a telephone user needs to be cautious.

Use Of The Telephone Near Water

The telephone should not be used while you are in the bathtub, shower or pool. Immersion of the telephone or handset in water could cause electrical shock.

Use Of The Telephone During An Electrical Storm

You should avoid using a telephone during an electrical storm in your immediate area; calls of an urgent nature should be brief. There is a remote risk of a dangerous electrical shock from lightning when using the telephone during a nearby electrical storm.

Use Of The Telephone To Report A Gas Leak

If you think you have found a gas leak, you should not use a telephone in the vicinity of the leak until the leak is repaired. The telephone contains electrical contacts that could generate a tiny spark when you lift the handset and dial. While unlikely, it may be possible for this spark to trigger an explosion if the gas concentration is high enough.

Use Of A Vandalized Coin Telephone

Do not use a coin telephone that has been vandalized. The handset could have exposed wires that could cause an electrical shock. If possible, contact telephone repair service to report the damaged instrument.

Rates & Policies

Copies of our rules and regulations and schedules of rates are available at our service office and are open to public inspection.

Handling Unwanted Phone Calls

If you do not want to talk to a person selling a product or service by telephone, just say "no thank you," and hang up.

If you're bothered by harassing or anonymous phone calls, try these techniques to discourage them.

Always hang up immediately at the first obscene word or if the person on the other end of the line doesn't respond after you've said "hello" twice.

Don't talk to the caller. This is what he or she wants you to do.

Don't give out any information or let the caller know if you're alone. Teach your children to say "Mom or Dad can't come to the phone. May I take a message?"

If the problem occurs continuously over an extended period, you should report it to your local law enforcement agency. Keep a record of the days and times of the calls, and note the caller's gender, voice, accent and comments. This information could assist the police.

It is a crime to make harassing, obscene or anonymous phone calls under both federal and state laws.

Prosecuting Fraudulent Callers

It is illegal for another person to charge long distance calls to your number or calling card without your permission. People using unauthorized calling cards or phone numbers to avoid charges are subject to prosecution and may be imprisoned, fined, or both.

• **Fraud:** For your protection, NDTC is able to detect fraudulent calls. State and Federal laws provide that no person shall defraud or attempt to defraud the Telephone Company of its lawful charges.

Toll Free Calls

You can call **free** to telephone numbers which are preceded by Zenith, Enterprise or area code "800." Dial the operator and ask for the Zenith or Enterprise number. Dial "800" numbers direct.

A separate Centralized Information Center is maintained for the "800" area code numbers and may be reached by dialing as you would to any other Distant Information Center: dial 1, then the area code "800," followed by 555-1212.

Person - To - Person Call

Place the call with the operator if you wish to talk to a particular person or extension. Charging starts when the conversation begins. Rates are highest for Operator Assisted Person-To-Person calls.

Conference Calls

Call your local Business Office for instructions.

Collect, Calling Card And Calls Charged to Another Number

Call Collect if the person or firm you are calling agrees to pay the charge. You can also bill calls to your Calling Card or to another number. Place these calls through the operator. Operator Assisted rates apply.

Mobile - Air - Land - Marine Calls

You can make calls to autos, trucks, trains, aircraft or boats equipped for telephone service. Dial the operator and ask for the Mobile Service Operator or the Marine Operator unless you've been instructed otherwise.

Overseas Call

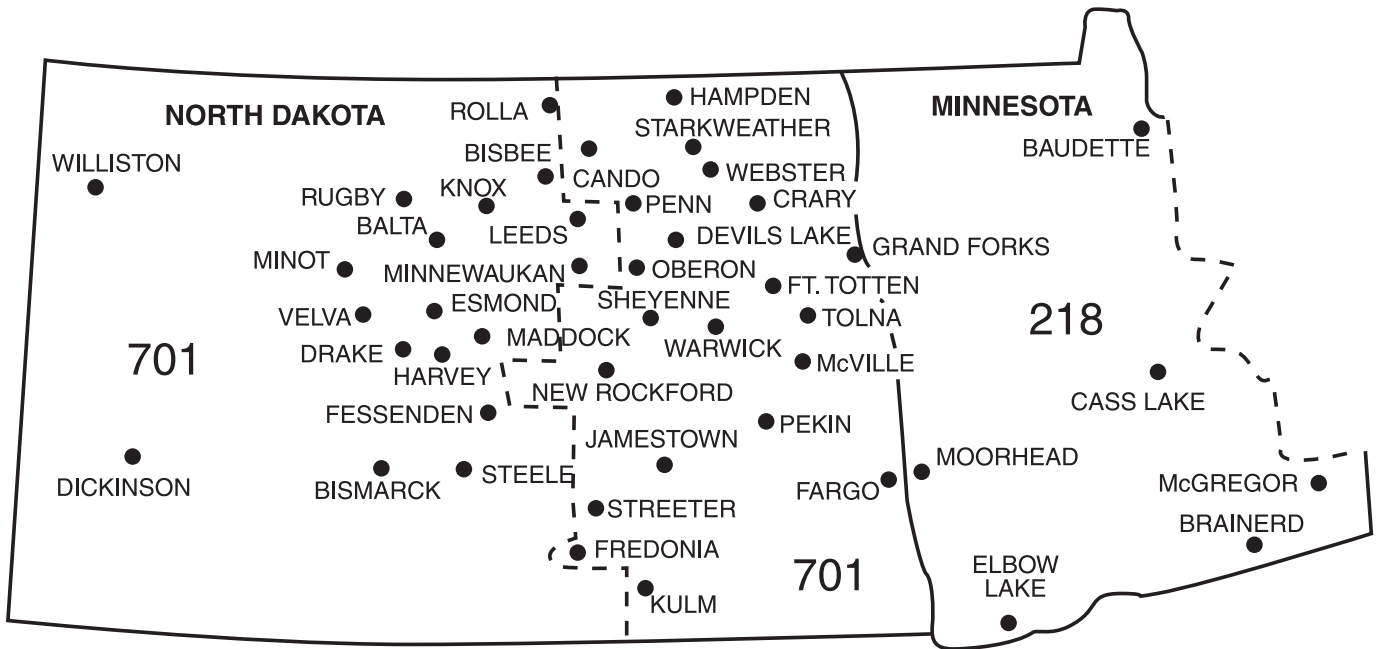

Calls to most of the world's telephones can be made from your phone. Dial the operator and give the name of the country you wish to call. Rates and reduced rate periods on calls to other countries differ from those on calls to U.S. points.

LONG DISTANCE

This map shows you the boundaries of your **LATA**.

BISMARCK LATA

FARGO/BRAINERD LATA

North Dakota has 2 LATAs * Bismarck LATA
* Fargo/Brainerd LATA

A LATA is a geographic area within which the local telephone company provides local and in some cases long distance services, plus access to the telephone network. If the exchange you live in has equal access, long distance calls made outside of the LATA may be provided to you by the carrier of your choice.

COUNTRY AND CITY CODES

The standard International Access Code (011) is used by all long distance companies. You may use any of the long distance companies serving your area by first dialing their seven-digit access code. Otherwise, your long distance call will be handled by the long distance company you chose when you order your telephone service.

Direct Dial: 011 + country code + city code + number
 Operator Assistance: 01 + country code + city code + number

HOW TO USE THIS CHART:

The bold number following the country name is the "Country Code" (* No City Code required)

Bold numbers besides cities are "City Codes"

The number to the right of the country name is the approximate time difference from Central Standard Time.
